

Dear Koi Spa,

I would like to let you know how exceptional I feel the staff at Koi Spa in Edgewater is. I have been living temporarily in Weehawken New Jersey and found the spa while I was driving around to get familiar with the area. From the beginning, each person that I came in contact with was friendly, helpful, and genuinely interested in making my visit as enjoyable as possible. Each week I am there for a manicure and pedicure, and monthly for waxing and a facial. When I walk through the door I am greeted right away and I always feel like I am visiting old friends instead of coming for a service. The spa is beyond clean, and the products are beautiful. My stay here in New Jersey is coming to an end and I have decided to continue coming to Koi Spa twice a month (perhaps more) despite moving to Brooklyn, New York. I disagree with people that think all spas are the same, or a manicure is a manicure. I have found a hidden treasure and I will continue to visit. I just felt that you should know what a wonderful staff you have. Diane is the best nail specialist I have ever met. She is precise and makes sure that you are perfect before you leave her chair. I am getting married this September, and she has single handedly fixed 10 years of bad eyebrow waxing in two months. Diane is a wonderful person and her pride in her work has kept me a loyal client. Belia is a gifted facialist, she makes my skin glow like I've never seen it glow before. Her calming nature and her amazing facial massage make her one of the best aestheticians I have ever met. Gloria and Jackie are the best; they go above and beyond to get me the appointment times I need and they are always so cheerful. I want to thank you for having such a great staff and a wonderful spa to relax at. Keep up the good work!

Sincerely,

Meaghan
